

Postsecondary Institution

Details: The following table and chart provide the number and percent of dually enrolled Maryland public high school 12th graders by the type of institution they attended in 2013-2014. The types of institutions include: [Maryland Community College](#), [Maryland Four-Year Public Institution](#), [Maryland State-Aided Independent Institution](#), and out-of-state institutions.

| Total | Community College | | Four-Year Public | | State-Aided Independent School (Private) | | Out-of-State | |
|-------|-------------------|-----|------------------|----|--|----|--------------|----|
| 5,742 | 4,935 | 86% | 424 | 7% | 94 | 2% | 289 | 5% |

*Note the table and chart include dually enrolled students attending an out-of-state postsecondary institution.
